

## MEMORANDUM

CONTRACTORS STATE LICENSE BOARD STATE OF CALIFORNIA

---

**Date:** June 17, 2002

**To:** Interested Parties

**Subject:** Final approval of amendments to California Code of Regulations section 832.54 Ceramic and Mosaic Tile Contractor

The rule making file to amend California Code of Regulations, Section 832.54, defining the scope of work for a C-54 Ceramic and Mosaic Tile Contractor was approved by the Office of Administrative Law on May 16, 2002 and filed with the Secretary of State on that same date. The amended language became **effective May 16, 2002** (the date of filing).

Section 832.54 Ceramic and Mosaic Tile Contractor was amended to read:

A ceramic and mosaic tile contractor prepares surfaces as necessary and installs glazed wall, ceramic, mosaic, quarry, paver, faience, glass mosaic and stone tiles; thin tile that resembles full brick, natural or simulated stone slabs for bathtubs, showers and horizontal surfaces inside of buildings, or any tile units set in the traditional or innovative tile methods, excluding hollow or structural partition tile.

The language now allows a C-54 contractor to install granite and other natural and simulated stone slabs for bathtubs, showers and horizontal surfaces, such as counter tops.
